

The Rotary Club of Mbarara is a nonprofit service based organization that is soliciting for partnership with your company in its efforts to eradicate POLIO from the face of the world. This is in line with Rotary International's main purpose.

Currently, there's a polio scare in the communities near our borders of Kenya, DRC and worse still 3 cases have been confirmed in South Sudan. It is for this reason that the Rotary Club of Mbarara has planned a **fundraising marathon** to raise funds for polio immunization on 7th December 2013 under the theme:

'POLIO FREE COMMUNITIES/WORLD' or

'kick polio out of our community'

As a prospective partner, the club requests for your support towards achieving this objective. We look forward to your positive response towards this noble cause
